Rules & Bonus Calculation

Understanding Sponsor & Placement Network

Rule: Sponsor network and Placement network

Sponsor network: A sponsor network includes an Advisor , their direct sponsors, and the New Advisors brought in by those Sponsors, and so on.

All bonuses (except Progression Bonus) are calculated based on the sponsor network.

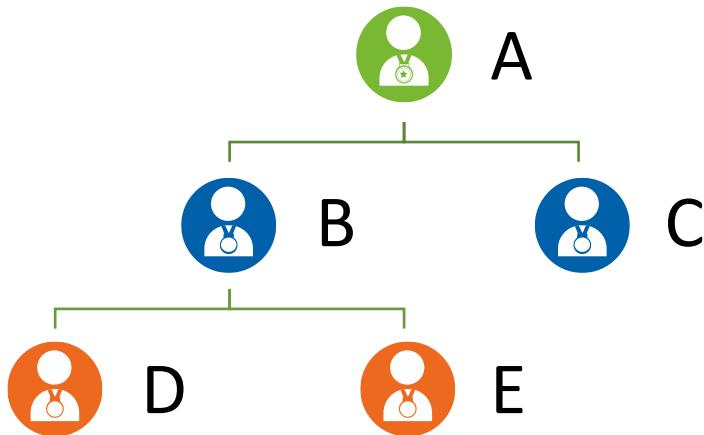

Placement network: An Advisor who sponsors an individual and places him/her under any of his/her downlines. F

Calculation of Title, GPV and calculation of Progression Bonus is taken from placement network.

The Spillover from your upline will help to grow your GPV and Title, however your commission will be calculated as per your sponsor network

- ✓ The plan has been designed to maximize income at every title level. Multiple bonus pools have been created to enhance the earnings of qualifiers at each respective title.
- ✓ All bonuses and funds are paid based on the **sponsor network**, except the **Progression Bonus**, which is the only bonus paid based on the **placement network**.
- ✓ Now, all bonuses and funds can be qualified for within a single month—there is no mandatory 3-month waiting period.
- ✓ All bonuses and funds are **monthly** and are paid based on the **Paid-As Title**, not the **Valid Title**.
- ✓ In case of any overflow beyond the capping amount, the excess fund is redistributed within the same bonus/fund. Therefore, the point value for a specific bonus/fund may vary.
- ✓ **Side Volume:** Refers to the PGPV (Personal Group Point Volume) from non-director legs. The roll-up NQD (Non-Qualified Director) volume from Director and above legs is not considered for roll-up title qualification.
- ✓ **GPV (Group Point Volume):** The total sum of all Advisor/Leader points below you, including NQD points.
- ✓ All bonus and fund calculations are based on **qualified generations**, i.e., Paid-As Title Directors and above. NQD points are not considered in bonus calculations but are included for determining the Leg qualification of **GPV 3600** under the **Mentorship Bonus**.

This plan is designed to boost a leader's **overall gross income**, rather than focusing on increasing any single income component
